

REMARKS

This is in response to the Office Action dated December 3, 2008. With this response, drawing are amended, the specification is amended, the abstract is amended; claims 1, 3, 5, 11, 13-17, 19, 20 and 23 are amended and all pending claims 1-7, 10-11 and 13-23 are presented for reconsideration and favorable action.

In the Office Action, Figure 2 is objected to. That figure has been amended and it is believed the objection may be withdrawn. Additionally, the Abstract was objected to. The Abstract has been amended and the objection may be withdrawn.

A number of objections and rejections were raised with respect to the claims. The claims have been amended and it is believed those objections and rejections may be withdrawn.

It is believed that all pending claims 1-7, 10-11 and 13-23 are in condition for allowance. Reconsideration and favorable action are respectfully requested.

It is believed that all of the pending claims have been addressed. However, the absence of a reply to a specific rejection, issue, or comment, including the Office Action's characterizations of the art, does not signify agreement with or concession of that rejection, issue, or comment. In addition, because the arguments made above may not be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as specifically stated in this paper, and the amendment or cancellation of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment or cancellation. Applicant reserves the right to prosecute the rejection claims in further prosecution of this or related applications.

The Director is authorized to charge any fee deficiency required by this paper or credit any overpayment to Deposit Account No. 23-1123.

Respectfully submitted,

WESTMAN, CHAMPLIN & KELLY, P.A.
